How to Fix a Leaking Air Duct | DoItYourself.com

Air duct leaks are undesirable to homeowners because they cause temperature issues, and waste money as well. The more air that is lost through a leaking duct, the less that it is cooling your space, the longer the system has to run to meet its temperature requirement.

Air Conditioner Not Working - Car Repair Questions

...

Your heater and air conditioner (HVAC) does three jobs; cool the interior of the car, heat the interior up and defrost the windshield. All three modes work together as a complete system. The climate control system is controlled by a main computer which houses the controls for the system and sits in the dash in most cases.
