The problem of managing space debris is both a challenge and an opportunity to preserve the space environment for future space exploration missions. We have generated a global problem that can only be solved with the help from

other Countries.

Space assets and threats to them - UNOOSA

Space debris Space assets and threats to them-UNOOSA-06092016 14 An essential element for this is adequate notification of outer space activities such as pre-notification of launches, possible break-ups in orbits or premature re-entry of space objects causing potential harm to the earth's atmosphere and on the ground; Thus, a serious commitment to the outer space law such as adherence to

Space debris - Wikipedia

Other data come from the ESA Space Debris Telescope, TIRA, the Goldstone, Haystack, and University of Southampton researcher Hugh Lewis predicted that the threat from space debris would rise 50 percent in the next decade and quadruple in the next 50 years. As of 2009, more than 13,000 close calls were tracked weekly. A 2011 report by the U.S. National Research Council warned NASA that the
